Item	Description	Unit	Quantity	Delivery Quantity	Schedule Date
10	<p>Hand held Force Gauge Specifications: The instrument is to be a compact, high precision force gauge with a high capacity force sensor to be used for measuring weld force. Measuring Range: 20.0 to 9000 N. Safe Working Load should be meeting the higher measuring range with allowable load up to 1.5 times of safe working load. Zero setting should be instant.Measurement accuracy: $\pm 5\%$ of Safe working loadDisplay: Automatically shift between ranges to provide reading with accuracy. Alert on Overload condition. Alarm functions for overload, battery or any abnormal operation to be flashed including auto power off when not used. Hold option for measured values to be provided.Analog Output: 4mV per count, no load resistance to be a minimum of 5kO. Force Sensor: An integrated Force sensor capable of measuring 20 to 9000N is to be connected and be compatible to the working of the gauge. The sensor and gauge should be compatible for operation and is to be integrating smoothly. Ambient Temperature: 0 deg C to 40 deg C Power: should be operable using a battery or rechargeable battery. One set of battery (batteries) required for operation to be provided extra as spare. Provision for rechargeable battery preferred. In case of rechargeable batteries, the battery and the charger are to be supplied as standard accessory.Working environment: the panel and the gauge should be dust and oil proof. Calibration: Calibration certificate to be provided for the instrument with one year validity.Warranty: The equipment is to be provided ONSITE WARRANTY for two years from the date of</p>	NO	1.000	1.00	28.02.15
