

EXPRESSION OF INTEREST

Ref: BHE/PW/PUR/PIPVG-WPF/EOI-1195

Date: 14/11/2013

SUB: Water Proofing of RCC Tanks at PIPAVAV Site.

Bharat Heavy Electricals Limited (BHEL), Power Sector – Western Region Head Quarters (PSWR-HQ) Nagpur invites response from competent organizations (agencies) that can carry out the subject work. The party shall primarily fulfill the Qualifying Requirements (QR) mentioned herein before BHEL invites competitive offer from such short-listed parties.

INTRODUCTION

Bharat Heavy Electricals Limited, a Public Sector Undertaking, is the largest Engineering and manufacturing enterprise in India in the energy-related/infrastructure sector, today. BHEL was established more than 50 years ago when its first plant was set up at Bhopal, ushering in the indigenous Heavy Electrical Equipment Industry in India- a dream that has been more than realised with a well recognised track record of performance. The company has been earning profits continuously since 1971-72 and paying dividends since 1976-77.

BHEL's operations are organised around three business sectors, namely Power, Industry and overseas Business.

To serve the customer better, 4 Power Sector regions were formed as Business Centres. Power Sector-Western Region (PS-WR) headquartered at Nagpur primarily covers the states of Gujarat, Maharashtra, Madhya Pradesh, Chattisgarh and Goa in the Installation of Power plants.

ABOUT EXPRESSION OF INTEREST

BHEL Power Sector-Western Region (PS-WR) will be finalizing agencies for waterproofing of RCC tanks at PIPAVAV Site. There are 4 large sized RCC tanks namely Clarified water tank (72m x79m x 4.8m), Permeate water tank (73.8m x 73.8m x 3.7m), DM Clarified water tank (80m x 79.5m x 4.8m) and Filtered water tank (75m x 68.6m x 5.3m) .Details of tank are as per ANNEXURE-I. The Scope of work is to make water retaining tank (over ground) leak proof after applying suitable treatment at bottom surface and part of RCC walls approx. up to 1m above base and at expansion joints, construction joints, twin columns, etc Bidders should visit site and assess the cause of leakage in RCC tanks to provide complete solution. There is reduction in water level due to leakage probably from base raft of tank, construction joints and expansion joints. RCC tank has to be made leak proof in all respect Bidders to submit their technical proposal stating the method of rectification, materials to be used with quantity, quality standard along with list of similar works executed with similar specification.

Leakage tests in all four tanks have to be performed after rectification and bidder has to provide guarantee of minimum 10 years for successful water proofing of these tanks
