Notes:

- Load carrying capacity mentioned for the variable items (* marked) is tentative only and shall be used for bid evaluation and ordering purpose.
- The actual load carrying capacity of the springs may undergo change after ordering , based on springs selected by owner /owner consultant.
- In such a case, price bid evaluation shall be done again based on revised load carrying capacity of the springs keeping all the prices same as quoted originally. In case of change in L1 status, the quoted price per unit load carrying capacity (kN) of the varibale items (i.e A1.1 & A1.2) of the original L1 vendor shall be proportionately reduced to maintain L1 status.
- Based on above, amendment to PO, if required, shall be issued.
- Generally the damping shall be required in the range of 5% to 20% of critical damping of whole machine foundation system to meet the design requirement. In exceptional case it may vary upto 30 % depending upon the available/selected spring unit as well as layout constraints. The bidder shall accordingly include the cost of damping in their quoted price for Cost of VIS per Unit load carrying capacity(kN). No extra price shall be provided on account of required damping. Cost of dampers is deemed to be included in the quoted rate of VIS (per kN).
- Price per Visit is lumsump which includes travel and accomodation charge.
- In case of foreign bidders the quoted F.O.B . price shall be loaded as per cluase no. 19.4 of instruction to Bidders and clause no. 9.7 of General Commercial Terms and Conditions of GCC Rev. 05 to arrive at TOTAL F.O.R site price for evaluation.
