Normal Pass

Inside view of the Baijnath city

Baijnath road

<p>1303</p>	<p>Road from Paprola, Baijnath to BHEL site via Pandol.</p>	<p>Single road stretch of about 30 – 35 km which is potholed and narrow with sharp curves with minimal turning spaces and even stones protruding at the turning and sharp climbs. It is informed to us that two trailers have toppled in this stretch earlier. It is recommended that extensive repair of the road is undertaken and road widened wherever necessary for the trailers to pass. A dry run of the empty trailer should be taken by the driver to understand road contour and elevation before actually moving the consignment.</p>	<p>Precaution while passing through</p>
