**ANNEXURE – A TO TCN-02**

<b>JOB</b>	Design, manufacturing, supply, storage, erection & commissioning, O&M etc, of 2 Nos 180/30T capacity, double girder EOT crane for 2X660 MW units at IB TPS, OPGCL, Banharpalli, Odisha.
<b>TENDER NO</b>	PSER:SCT:BNP-M1589:14

<b>Sl. No.</b>	<b>Reference clause of tender document</b>	<b>Existing provision</b>	<b>Bidder's query</b>	<b>BHEL's clarification</b>
1.	1.3.1.B(e) page 12 of 145	Load / overload testing of lifting beam.	Please confirm the capacity of lifting beam & procedure for load testing at manufacturers works.	Bidder to note that lifting beam is not required. Accordingly clause no. 1.3.1.B (e) stands deleted.
2.	VOL-III, REV-0 (Price Schedule)		Please note that the break up given under " allocation of total price in percentage" column is incorrect considering the correct value of supply of crane and accessories, You have given DSL @ 3% of total and rails @ 4%. Pls note that the rail price is almost double the price of DSL and as such difference of 1% is not correct. Price for erection and commissioning spares and maintenance tools is given as 1% which is almost nearly 8 to 10 times higher than the correct price. Installation charges given is 20% of total contract value which is not correct. Normally, it is 10% or even lower than that. As such, we would like to give supply as well as installation charges in absolute value and not percentage wise.	The price break-up will be as per tender terms and conditions.
