**CORRIGENDUM –II**

**Ref Enq: NKR0000113 dt. 24.06.2016**

1. If any vendor wish to quote optional Walkie-Talkie System, provision for quoting for optional system is given in EPS
2. Vendor needs to attach the price breakup of each item as per BOM as attachment in the price bid. However in case of difference in attachment and portal price, only portal price will be considered for evaluation and ranking.
3. Each vendor will be informed about his acceptable option/s before price bid opening. Price of acceptable option only will be considered for price evaluation.
4. In case more than one option is acceptable by BHEL/Customer, option with lowest price only will be considered for price evaluation, ranking and ordering.
5. Final L1 will be evaluated based on option accepted for each vendor. System generated comparative statement by EPS will not be considered as final ranking.
6. Price quoted by vendors in the EPS portal price bid will be final and other price quoted anywhere else in the attachment will deemed to be invalid.
7. Final comparative statement will subject to evaluation considering the other price impacts like loading factor and project benefits (refer attached special commercial conditions for project benefit).
