16 MODE OF PAYMENT AND MEASUREMENT OF THE WORK COMPLETED

16.1 All payments due to the contractor will be paid by Account Payee Cheque / DD /Electronic transfer of funds.

BHEL

Contractor

- 16.2** For running bill payment - The contractor shall present detailed measurement working sheets, in five copies, duly indicating all relevant details based on technical documents and connected drawings for work done during the month/period under various categories in line with terms of payment as per letter of intent. The basis of arriving at the quantities / weight shall be the relevant documents and drawings released by BHEL.
- 16.3** Bill no. as declared to respective jurisdictional central excise office, service tax registration no., jurisdictional central excise address and nature of service provided, should be compulsorily pre-printed on the bills
- 16.4** These measurement-working sheets will be checked and vetted by BHEL Engineers. Quantity and percentage eligible for payment under various groups shall be decided by BHEL Engineers. The abstract of quantities and percentage so arrived based on the terms of payment shall be entered in measurement book and signed by both the parties.
- 16.5** Contractor may submit the necessary invoice, with full particulars/ details after completion of the works. These details will be entered in Measurement book, signed by both the parties, and the invoices will be processed for payment, after effecting necessary statutory recoveries. Four sets of invoices are to be submitted to the BHEL Site in-charge along with necessary documentary proof for the service tax paid by the contractor for this work for necessary certification. Bills without BHEL Site-in-charge certification and above-mentioned document will not be processed and the same will be returned.
- 16.6** All recoveries due from the contractor for the month / period shall be effected in full from the corresponding running bills unless specific approval from the competent authorities is obtained otherwise.
- 16.7** Measurement shall be restricted to that for which it is required to ascertain the financial liability of BHEL under this contract.
- 16.8** The measurement shall be taken jointly by persons duly authorised on the part of BHEL and by the contractor.
- 16.9** The contractor shall bear the expenditure involved, if any, in making the measurement. The contractor shall, without extra charges, provide all the assistance with appliances and other things necessary for measurement.
- 16.10** If at any time due to any reason, whatsoever, it becomes necessary to re-measure the work done in full or in part, the expenses towards such re-measurement shall be borne by the contractor.
- 16.11** Passing of measurements as per bills does not amount to acceptance of the completion of the work mentioned. Any left out work has to be completed, if pointed out by BHEL later.
- 16.12** Final measurement bill shall be prepared in the final bill proforma prescribed for the purpose based on the certificate issued by BHEL engineer that entire work as stipulated in the tender specification has been completed in all respects to the entire satisfaction of BHEL.

BHEL

Contractor

16.13 In addition, the contractor shall produce 'No Due' and 'No Demand' certificates in the proforma issued by BHEL. All the tools and tackles loaned to them should be returned in condition satisfactory to BHEL within a reasonable time after completion of work before submitting the final bill. The final bill quantities and financial value shall also be entered in measurement book and signed by both the parties to the contract.

17 RIGHTS OF BHEL

BHEL reserves the following rights in respect of this contract without entitling the contractor for any compensation.

22 GUARANTEE:

- 22.1** The contractor will be responsible for the quality of the workmanship and shall guarantee the work done for a period of **12 months** from the date of completion of work as certified by the engineer for good workmanship, and rectify free of cost all defects due to faulty work, detected during the guarantee period starting from the date of completion of rectification. In the event of contractor failing to repair the defective works within the time specified by the engineer, BHEL may proceed to undertake the repairs of such defective works at the

BHEL

Contractor

contractor's risk and cost, without prejudice to any other rights and recover the same from security deposit / other dues or by other legal means.

23 ARBITRATION:

23.1 Except where otherwise provided for in the contract all questions and disputes relating to the meaning of the specifications, designs, drawings and instructions herein before mentioned and as to the quality of the workmanship or materials used on the work or as to any other question, claim, right, matter or thing whatsoever in any way arising out of or relating to the contract designs, drawings, specifications, estimates, instructions, orders or these conditions or otherwise concerning the work or failure to execute the same whether arising during the progress of the work or after the completion or abandonment thereof shall be referred to the sole, arbitration of the Executive Director of BHEL and if Executive Director is unable or unwilling to act, to the sole arbitration of some other person appointed by the Executive Director, willing to act as such arbitrator.

The cases referred to arbitration shall be other than those for which the decision of the Acceptance officer, or Engineer-in-charge as the case may be is expressed in the contract to be final and conclusive. There will be no objection if the arbitrator so appointed is an employee of BHEL and that he had to deal with the matters to which the contract relates and that in the course of his duties as such he had expressed views on all or any of the matters in dispute or difference.

The arbitrator to whom the matter is originally referred being transferred or vacating his office or being unable to act for any reason, such Executive Director as aforesaid at the time of such transfer, vacation of office or inability to act shall appoint another person to act as arbitrator in accordance with the terms of contract. Such person shall be entitled to proceed with the reference from the stage at which it was left by his predecessor.

Subject as aforesaid the provision of the Arbitration Act, 1940 or any statutory modification or re-enactment thereof and the rules made thereunder and for the time being in force shall apply to the arbitrator under this clause.

It is a term of the contract that the party involving arbitration shall specify the dispute or depute to be referred to arbitration under this clause together with the amount or amounts claimed in respect of each such dispute.

The arbitrator(s) may, from time to time, with consent of the parties enlarge the time for making and publishing the award.

The work under the contractor shall, if reasonably possible, continue, during the arbitration proceedings and no payment due are payable to the contractor shall be withheld on account of such proceedings.

The work under the contractor shall be deemed to have entered on the reference on the date he issues notice to both the parties fixing the date of first hearing.

The arbitrator shall give a separate award in respect of each dispute or difference referred to him.

The venue of arbitration shall be such places as may be fixed by the arbitrator in his sole discretion. The award of the arbitrator shall be a final conclusive and binding on all the parties to this contract.

In the event of disputes or differences arising between one public sector enterprise and a Govt. department or between two public sector enterprises, the above stipulations shall not

apply. The provisions of BPE office memorandum no. BPE/CL 001/76 MAN/2 (1.10) 75-BPE (GM - 1) dated 1st January 1976, or its amendments for arbitration shall be applicable.

25. Reverse Auction:

"BHEL reserves the right to go for Reverse Auction (RA) instead of opening the sealed envelope price bid, submitted by the bidder. This will be decided after techno commercial evaluation. All bidders to give their acceptance or participation in RA. Non-acceptance to participate in RA may result in non-consideration of their bids, in case BHEL decides to go for RA.

In case BHEL decides to go for Reverse Auction, only those bidders who have given their acceptance to participate in RA will be allowed to participate in the Reverse Auction. Those bidders who have given their acceptance to participate in Reverse Auction will have to necessarily submit "online sealed bid" in the Reverse Auction. Non submission of "online sealed bid" by the bidder will be considered as tampering of the tender process and will invite action by BHEL as per extant guidelines in vogue".

26. Terms & Conditions of Reverse Auction

Against this enquiry for the subject item / system with detailed scope of supply as per enquiry specifications, BHEL may resort to "REVERSE AUCTION PROCEDURE" i.e. ON LINE BIDDING (THROUGH A SERVICE PROVIDER). The philosophy followed for reverse auction shall be English Reverse (No ties).

1. For the proposed reverse auction, technically and commercially acceptable bidders only shall be eligible to participate.
2. Those bidders who have given their acceptance for Reverse Auction (quoted against this tender enquiry) will have to necessarily submit "online sealed bid" in the Reverse Auction. Non-submission of "online sealed bid" by the bidder for any of the eligible items for which techno-commercially qualified will be considered as tampering of the tender process and will invite action by BHEL as per extant guidelines in vogue.
3. BHEL will engage the services of a service provider who will provide all necessary training and assistance before commencement of online bidding on internet.
4. In case of reverse auction, BHEL will inform the bidders the details of Service Provider to enable them to contact & get trained.
5. Business rules like event date, time, bid decrement, extension etc., also will be communicated through service provider for compliance.
6. Bidders have to fax the Compliance form before start of Reverse auction. Without this, the bidder will not be eligible to participate in the event.
7. In line with the NIT terms, BHEL will provide the calculation sheet (e.g. EXCEL Sheet) which will help to arrive at "Total cost to BHEL" like packing & forwarding charges, taxes and Duties, Freight charges, Insurance, Service Tax for Services and loading factors (for non compliance to BHEL standard Commercial terms & conditions) for each of the bidder to enable them to fill-in the price and keep it ready for keying in during the Auction.
8. Reverse Auction will be conducted on scheduled date & time.
9. At the end of Reverse Auction event, the lowest bidder value will be known on auction panel.

10. The lowest bidder has to fax/e-mail the duly signed and filled-in prescribed format for price breakup including that of line items, if required, as provided on case to case basis to Service provider within two working days of Auction without fail.
11. In case BHEL decides not to go for Reverse Auction procedure for this tender enquiry, the Price bids and price impacts, if any, already submitted and available with BHEL shall be opened as per BHEL's standard practice.
12. Bidders shall be required to read the "Terms and Conditions" section of the auctions site of Service provider, using the Login Ids and passwords given to them by the service provider before reverse auction event. Bidders should acquaint themselves of the "Business Rules of Reverse Auction" which will be communicated before the Reverse Auction.
13. If the bidder or any of his representatives are found to be involved in Price manipulation / cartel formation of any kind, directly or indirectly by communicating with other bidders, action as per extant BHEL guidelines, shall be initiated by BHEL and the results of the RA scrapped / aborted.
14. The bidder shall not divulge either his Bids or any other exclusive details of BHEL to any other party.
15. In case BHEL decides to go for reverse auction, the H1 bidder (whose quote is highest in online sealed bid) may not be allowed to participation further RA process.

GENERATOR REWINDING

SCOPE OF WORK AND SPECIAL CONDITIONS

Dismantling and rewinding of stator:

1. Removing of existing stator winding completely and cleaning of slots.
2. Conducting hot spot test and repairing of the core if necessary.
3. Complete rewinding of stator with new super enamelled round copper conductor winding wire with class "H" insulation. Shaping the overhang portion as in original stator. Providing connections with silver brazing joints and taping with fibreglass backed mica tapes and drying. Varnishing and curing, spraying a final coat of moisture proof epoxy gel coat (Dr. Beck's gel coat) compound. The terminal markings in the terminal box shall be in line with the original generator.
4. Supply and fixing of the following sensors in position as in the original winding. The colour code for the sensors shall be in line with the original generator
 - (i) 3 nos. of 3 wire RTD (PT 100) embedded between the two windings of each phase. The RTDs shall be of encapsulated type of size 8mm x 3mm x 150mm.
 - (ii) 2 sets of early warning PTC thermistors (140°C) one in each phase of winding.
 - (iii) 2 sets of overload trip thermistors (140°C) one in each winding.
 - (iv) 2 nos. of 240V AC, 500W space heater
 - (v) 2 nos. of RTDs (PT100) for bearing temperature detectors.
 - (vi) supply of one number of Connecting Terminal Block if required(damaged one to be replaced with new one).
5. Change of bearing if required, shall be done free of cost, when the generator has already been dismantled for stator rewinding. Bearings will be supplied by BHEL, if required.

Dismantling and manufacture of rotor shaft:

1. Removal of rotor laminations from old damaged shaft.
2. Machining of rotor shaft and keyway milling, as per existing shaft, to suit the rotor assembly, if required. Raw material for the shaft will be provided by BHEL.
3. Fixing of rotor laminations to the new shaft to maintain uniform air gaps.
4. Dynamic balancing of the rotor assembly and shall meet the requirements of **2.5 grade of ISO 1940**. Bearings will be supplied by BHEL.

BHEL

Contractor

6. In case only shaft is manufactured and assembled then the following works are also to be carried out. Cleaning of stator with compressed air, washing of windings, drying, application of epoxy gel coat and baking.
7. Change of bearing if required, shall be done at free of cost, when the generator has already been dismantled for repair of rotor.

Note: Bearings & shaft material will be issued free of cost by BHEL, Ranipet and contractor shall collect the same from BHEL, Ranipet at their own cost.

Inspection and testing:

1. The contractor shall inspect by dismantling the generator and furnish details as required in the inspection report, like nature of fault / damage noticed, extent of damage to various parts including bearings. Any abnormalities on the core / rotor etc., may be brought to the notice of BHEL, before proceeding with any repair. The format will be given to the successful tenderer.
2. During dismantling of the generator proper / sufficient care shall be taken so as not to damage the bearings, end shields etc.
3. After dismantling of the generator, two copies of photographs shall be taken to clearly / prominently show the details / severity of the damage to the stator / rotor. The serial number of the generator shall be displayed in the photograph by a suitable arrangement for easy identification of the generator.
4. The inspection report along with photographs shall be submitted in duplicate, before commencement of the rewinding works.
5. After completing the rewinding / repair of the generator, the following minimum test, as per **IS325 (and corresponding IS standards for each test as specified in IS325)**, must be carried out, with the generator in full assembled condition in the presence of BHEL's engineer:
 - a) Measurement of winding resistance of both windings.
 - b) Measurement of IR value of both windings (IR value should not be less than 100Mohms) before and after HV test. IR measurement to be carried out with 500V megger only.
 - c) HV Test: 2kV rms for one minute, and measurement of leakage current.
 - d) No load test - running as motor for 2 hrs. for both windings. All 3 phase current, speed & temperature raise should be noted. Any abnormal bearing sound, vibration and temperature raise is to be observed.
 - e) Locked rotor test
 - f) Full load test
 - g) Growler's test for locating high resistance points / joints on rotor assembly, in case of repair to rotor assembly.

6. All tests / measurements shall be carried out using calibrated measuring devices / meters / equipments only. The valid calibration certificate shall be produced, if asked for, during testing / measurement.
7. Detailed report for the tests carried out, as per format, after completion of repair / rewinding works shall be submitted in duplicate.

Special conditions:

1. Best Quality of enamelled copper wire of BIC / Atlas make only shall be used for rewinding of generator stator. The packing labels containing the batch nos. of the enamelled copper wire shall be submitted to BHEL. Test certificate corresponding to batch nos. of enamelled copper wire used for rewinding shall also be submitted to BHEL. Best quality of insulating material like Nomax papers, etc., varnish, sleeves, Dr. Beck's gel coat only shall be used for rewinding of generators. RTDs & Thermistors should be of reputed make.
2. Additional technical information if any required may be got from BAP, Ranipet.
3. The contractor shall collect the generators from site (Ramagiri and Kadavakallu, Anantapur district of Andhra Pradesh) and after completing the work should return to site as applicable.
4. The generators sent for repair shall be inspected, by a surveyor appointed by the insurance company with whom the particular generator is insured. The survey shall be carried out at the contractor's works with the generator in dismantled condition. The contractor shall co-ordinate with the insurance surveyor to carry out and complete the inspection. The contractor shall bear the expenditure, if any, involved in carrying out such inspections. The contractor shall, without extra charges, provide all assistance with equipment / appliances etc. necessary for the inspection / testing.
5. The generators will be inspected by BHEL Engineers before (if required) and after repair at the contractor's works, before despatch to site. The contractor shall bear the expenditure, if any involved in carrying out such tests. The contractor shall, without extra charges, provide all assistance with equipment / appliances etc. necessary for the testing.
6. If at any point of time, due to any reason whatsoever, it becomes necessary to carry out any or all of the tests again; the same shall be carried out by the contractor without any extra charges.
7. **The contractor shall give guarantee of 1 (One) year from the date of dispatch / re-commissioning of the generator.**
8. All materials supplied by the contractor and incorporated on the work shall confirm to the latest IS specifications including all applicable official amendments and revisions.

9. Any work found defective / unsatisfactory, the contractor has to rectify the same at his own cost, which shall include charges for dismantling, transportation, re-erection also. In case the contractor fails to rectify the defects, within the specified time, as per BHEL Engineer's instructions the same will be carried out by BHEL at the risk and cost of the contractor and the cost will be deducted from the contractor's bill.
10. The full/repair cost of the components/parts damaged intentionally/ unintentionally by the contractor during servicing/repair/rectification works, due to negligence, carelessness, inability etc., would be recovered from the running monthly bills as decided by BHEL.
11. Before submission, the tenderers are advised to acquaint themselves with the general instructions to the tenderers, drawings, specifications, special conditions, scope of work etc. No claim shall be entertained on account of this, after the acceptance of the tender or during the currency of the contract.

RATE SCHEDULE

1. The tenderer is expected to fill the rate schedules both in figures and words after satisfying all the terms and conditions of the tender specification. The scope of work and responsibility of the contractor as mentioned under this specification shall be covered within the quoted rates.
2. The tenderers shall quote rates in English Language and International numerals. Rates for each item of the tender schedule should be quoted in Rupees and Paise only. In case of any difference in the rates quoted in figures and in words, the lower of the two rates will be taken as the tenderer's rate. In the event of an error occurring in the amount column of schedule of items as a result of wrong extension of the unit rate and quantity, the unit rate shall be recorded, as firm and extension shall be amended on the basis of the rate. All errors in totalling in the amount column and in carrying forward totals shall be corrected.
3. Rate quoted for the rewinding shall be firm throughout the contract period including total extended period if any and include all royalties, **service taxes**, tax on works contract and any other taxes levied and liveable under the state or central government rules during the currency of the contract. Bharat Heavy Electricals Ltd. will not entertain any claim in this regard.
4. All entries in the tender either shall be typed or be written in ink and over writings are not permitted. All cancellations and insertions shall be duly attested by the tenderer.
5. For the purpose of evaluation of quotes against this tender the overall / aggregate amount quoted for the total scope of work shall be taken into account.
6. In the event of more than one party being L1, BHEL reserves the right to split and award the contract.
7. The tenderers are advised to assess the correct distances, availability of work force, transportation facilities and the prevailing site conditions by visiting the site before submitting the quotation. BHEL shall not be responsible in any way for lack of contractor's knowledge on the same and no claim will be entertained later on this account.
8. The quantities shown in the attached schedule are only approximate and are liable to variation without entitling the contractors to any compensation.
9. The tenderer has to follow all the safety regulations prevailing in the site. The contractor should take note of these situations. No extra claim on this account shall be entertained.
10. No deviation to the conditions stipulated in the tender will normally be accepted. However, in case the tenderer desires to take any deviation, the same shall be clearly brought out in the form of statement of deviation giving description of deviation, reference clause and monetary implication of the condition in case of withdrawal.
