Technical Specification of Spray Paint Booth (SPEC. No.: CTI/SR/SPB/04-2013)

Part A. General Requirement:

- 1. Purpose:** A "booth" or a "work station" for spray painting various specimens/objects etc.
- 2. Body Construction:** Material of construction is to be stainless steel, SS 304 grade with i) Painting chamber, ii) Extraction Chamber & iii) Water Curtain area using minimum of 1.6 mm sheet and iv) Tank with 2 mm sheet respectively. However, for internal/external work & mounting purposes of various required parts, supports, grating etc, GI/MS material could be used and the structure is also to be painted wherever necessary.
- 3. Type & Special Features:** Front open Water Curtain Type (one service door is to be provided). The booth should have all arrangements, required attachments or fixtures etc (mechanical & electrical) for spray painting various specimens conveniently. The Booth is to be supplied along with all the fixtures, valves, accessories etc, those required for installation & commissioning.
- 4. Washing Chamber (Cleaning arrangement):** 01 number (with suitable dimension) with required eliminator plates & other required arrangements. Since the cleaning operation needs to be carried out using water (also with various chemicals, alkali/acid etc) for removing dried/sticky paint mass that often gets adhered into various areas in the booth during operation, hence the booth should have the provision of "water-wash cleaning system". The booth should have a washing tank along with a pump with suitable capacity.
- 5. Inspection:** The Vendor should call BHEL for technical inspection (about one week in advance) prior dispatch at their Works. The Vendor can dispatch the item only after technical clearance by BHEL representative.
- 6. Commissioning:** The Vendor need to commission the Booth at our plant at their cost. BHEL would only provide the required utility & services for this purpose, i.e., providing electrical power supply with all electrical connections etc, compressed air line (for spray gun usage inside the booth), air ducting, water line (inlet & outlet drain), required civil work & arrangements, for un-loading the equipment etc.

7. **Safety Features:** All safety features of the Booth (internal cabling, earthing etc) also need to be provided. The booth is to have provision of lighting arrangements. All the electrical & mechanical items/parts should be reliable and of standard make.
8. **Warranty:** One year warranty for major parts & spares from the date of commissioning

Part B: Specifications of the Spray Painting Booth:

1. **Working Dimension of the Booth (approx) :** W x L x H = 900mm x 1200mm x 1800mm
2. **Number of Exhaust Blower:** 01 number (2 HP); standard make
3. **Number of Pump Motor:** 01 number (0.5 HP); standard make
4. **Starter:** DOL starter; motor location could suitably be placed
5. **Lighting arrangement:** Suitable lighting arrangement inside the booth along with internal wiring to be provided to be provided [Two numbers of tube light (36 w)]
6. **Safety features:** All required safety features are to be provided. All the electrical & mechanical items/parts should be reliable and of standard make. Thermal overload relays, push buttons & indicators to be provided
9. **Design Flexibility:** The design of the Booth might vary from one Party to another Party, however the all the basic requirements as mentioned in the above, should qualify technically for the purpose.
